Satellite services for the Maritime Industry

Maritime industry meets Space MARSAT Workshop

21. Sept. 2017

following World ECDIS Day

Empire Riverside Hotel
Bernhard-Nocht-Straße 97
Conference room 2B
20359 Hamburg
Germany

Overview

This workshop will provide an exchange of information on challenges and solutions for the maritime industry in the digital era (Maritime 4.0) with a strong emphasis on the contribution of remote sensing (satellite and airborne sensors), modeling services and data flows. We will discuss concepts, potential

applications and 'real world' examples in separate workshops. Topics will include data integration in maritime applications such as safety of navigation, environmental mapping, situational awareness, ice services, voyage planning and information systems.

Agenda

- 08:30 Welcome Coffee
- 09:00 Keynote MARSAT
Dr. T. Heege, CEO EOMAP
- 09:20 Keynote User
- 09:50 Workshops, ~45min
including 5 min keynote
- 12:30 Discussion and conclusions
- 13:30 scheduled end of meeting.
Lunch break

Workshop 1: Navigation

Voyage planning, ice services, bathymetry
Moderator: Friedhelm Moggert-Kägeler,
Product Manager SevenCs

Workshop 2: Environmental monitoring

Seastate, currents, turbidity, oil slicks
Moderator: Dr. Thomas Heege, CEO EOMAP

Workshop 3: Data integration

Interfaces, Apps and on-board hardware
Moderator: Frank Diegel, Management
TRENZ AG
